Question 1:

Considering UCD guidelines and usability principles we have discussed in chapter 7; identify usability defects and draw a better UI according to learner users.

The Main components required to consider In USD are:

- Research and study
- Join a public speaking club or organization.
- Set regular practice sessions.
- Seek feedback and mentorship.
- Gradual exposure and increased challenge
- Evaluate progress and adjust strategies.

Features:

Information is easily understandable.

Template is similar in overall design.

Design is intuitive and simple.

Proper labeling and text formatting is used.

Font style is appropriate.

Labels are self-explanatory.

Lacks:

Help is not accessible.

Users must submit a lot of information.

Not useful for people who are blind to blue color.

Voice option is not available to fill the form via voice note.

User cannot edit his profile picture.

Spelling mistake of label 'Sing' which should be 'sign'.

In simple words, UI is USD but contains limited features.
