

PARAS Grammar School – First Term Exam

(Ali Raza bad near Ali Town Station Lahore)

Course Title	Computer Science	Instructor/s	Mr. Aoun Haider		
Class	10 th	Syllabus	Chapter 1		
Time Allowed	2 hour	Date		Total Marks	50
Student Name		Roll No			

Important Instructions/Guidelines:

1. Attempt all the questions
2. Cutting/overwriting is not allowed
3. Return the question paper along with your answer sheet
4. Solve q no. 1, 4, 5, 6, 7, 8 on question paper

Q#01: Mark the correct option.

[0.5x10 = 5 Marks]

1. *include* statements are written in _____ section.
a) main b) header
c) comments d) print
2. A char uses _____ bits of memory.
a) 8 b) 4
c) 1 d) 2
3. For initializing a variable, we use _____ operator.
a) ? b) \$
c) @ d) =
4. Every programming language has some primitive building blocks and follows a grammar known as its _____.
a) Programming rules b) Building blocks
c) Syntax d) Semantic rules
5. _____ are the values that change during the whole execution of program.
a) Variables b) Constants
c) Strings d) Comments
6. _____ can be thought of as a container to store constants.
a) box b) jar
c) variable d) collection
7. Single line comment always starts with
a) \\ b) //
c) /*/* d) /*
8. Which value among the following can be stored in *float* data type variable?
a) 4.65565656666 b) 4.566644545544444
c) 4.567860 d) 2.5580931
9. Computer understands
a) Binary/Machine Language b) C Language
c) C++ Language d) Python Language
10. IDE contains
a) Text Editor b) Compiler
c) Debugger d) All of these

Q#02: Attempt any 12 short questions:

[2x6 = 12 Marks]

1. Write general structure of variable initialization at the time of declaration.
2. Define text editor.
3. Define identifier.
4. What is the purpose of using compiler?
5. What is a case sensitive language. Example?
6. What is the purpose of single line comment?
7. What is variable declaration?
8. What is meant by IDE?
9. What is meant by syntax?
10. What is difference between char and int?
11. What are reserved words?
12. What is meant by computer programming?
13. What is purpose of comments in C language?
14. Who is programmer?
15. How many types of variables? Provide names.

Q#03: Attempt any two long questions:

[5x2 = 10 Marks]

1. Write general structure of a C program with an example.
2. What are the rules of declaring a variable?
3. Write a detailed note on comments and its types with example.

Q#04: *Declare a and initialize a variable in one line for each of the given statement.*

[1x4 = 4 Marks]

Age of a student	
Your gender	
Your height	
First letter of your country	

Q#05: Identify valid and invalid variable name among the following

[1x4 = 4 Marks]

_Paras		\$soap		Comp23Sci		9val	
--------	--	--------	--	-----------	--	------	--

Q#06: Identify type of constant for each of the following values

[1x5 = 5 Marks]

133		1.2	
'/'		-40	
-3.14			

Q#07: Tick the valid comments among the following:

[1x5 = 5 Marks]

paras grammar school	
// welcome to monthly test */	
\\ programming is not easy	
\\ computer flickers rarely /	
* clever programmer writes clean code *\	

Q#08: Remove mistakes and rewrite the given C program on the provided space.

[5 Marks]

```
#Include<stdio.h>

\\ My mini C program
Int Main()
{

    int Float = 30.5;

    Printf("Chapter 1 test")
    Printf("Best of luck!!")

    reTurn 0;

}
```
