

Mark the correct answer:

[Marks: 1 + 1 = 2]

1. *MRI stands for*

- a) Magnetic Resonance Interconnect b) Magnetic Resonant Imaging
c) Magnetic Resonance Imaging d) Mechanic Resonance Imaging

2. *Google Translator is an example of* a) AR b) VR c) CAT d) CT

Identify T/F

[Marks: 1 + 1 = 2]

1. Machine learning is a branch of artificial intelligence **T** **F**
2. Data written in a block/file in block chain can be modified **T** **F**

Answer the following questions:

[Marks: 2 + 2 + 2 + 5 = 11]

1. Define Robotics with its two real life applications.
2. What is CAT? Explain with an example.
3. What are the other names used for self-driving cars?
4. Differentiate between Virtual Reality (VR) and Augmented Reality (AR).
-

Mark the correct answer:

[Marks: 1 + 1 = 2]

1. *CT stands for*

- a) Computerized Tomography b) Computer Assisted Translation
c) Computed Tomography d) Computerized Telepathy

2. *Virtual Reality environment is* a) Real b) Artificial c) More real, less artificial d) (a) & (b) both

Identify T/F

[Marks: 1 + 1 = 2]

3. Robotics is branch of artificial intelligence **T** **F**
4. New Technology is also referred to as Emerging Technology **T** **F**

Answer the following questions:

[Marks: 2 + 2 + 2 + 5 = 11]

5. What is Holography Imaging? Explain with an example.
6. Which device is used to experience virtual reality?
7. Why 5G is faster than other technologies?
8. Write a note on block chain.
-

Mark the correct answer

[Marks: 1 + 1 = 2]

2. *MRI stands for*

- a) Magnetic Resonance Interconnect b) Magnetic Resonant Imaging
c) Magnetic Resonance Imaging d) Mechanic Resonance Imaging

2. *Google Translator is an example of* a) AR b) VR c) CAT d) CT

Identify T/F

[Marks: 1 + 1 = 2]

5. Machine learning is a branch of artificial intelligence **T** **F**
6. Data written in a block/file in block chain can be modified **T** **F**

Answer the following questions

[Marks: 2 + 2 + 2 + 5 = 11]

9. Define Robotics with its two real life applications.
10. What is CAT? Explain with an example.
11. What are the other names used for self-driving cars?

Differentiate between Virtual Reality (VR) and Augmented Reality (AR).
